Perceivable quality— Ultimate drying performance

What is condensation drying?

All Bosch dishwashers use a condensation drying process. Instead of utilizing a heating element at the bottom of a dishwasher, condensation drying involves a number of dishwashing elements that work together to efficiently dry your dishes more hygienically than conventional air drying; and with minimal energy.

Here's how it works:

- The final rinse uses high-temperature water to make the dishes very hot.
- The stainless steel tub of the dishwasher cools faster than your dishes because stainless steel cools faster than glass and porcelain.
- Condensation occurs when the moist air in the dishwasher comes into contact with the cooler stainless steel tub, and turns into water droplets. These water droplets trickle down to the bottom of the dishwasher and are drained.

Benefits:

- Since it's a closed system with no fan, the cleaning process is more sanitary.
- With no exposed heating element, plastic utensils and dishes placed on lower rack will not melt.

For best results:

- Always use a liquid rinse aid.
- Select the Auto cycle.
- Press the Sanitize or Extra Dry option.

MyWay™ rack

MyWay™ offers more room for more kinds of items in the top rack, such as cereal bowls, whisks, tongs and large measuring cups, creating more freedom in loading below. Available on all 800 Series Premium models.

RackMatic® adjustable rack

This remarkable middle rack easily raises or lowers in just one step, even when full. Designed to allow taller items like stemware to fit in the middle rack while leaving room for pots and pans below, it offers three different heights and up to nine separate rack positions.

FlexSpace™ tines

This convenient new feature lets you fold back every other tine in one simple step, so it's easier to fit your largest, bulkiest items. Available on lower racks in 300 Series models and up, it helps to hold pots and pans upright, leaving more room for your other dishes.

Advancing the science of silence.

To a Bosch engineer, quiet operation is just as important as sparkling clean dishes. For you, that means never having to wait until going to bed to run the dishwasher. And when hosting a dinner party, you can start the dishes right after dinner, instead of waiting until everyone leaves. Because life doesn't have to stop just because your dishes need to be cleaned.

▶ The Quietest dishwasher brand in the U.S.¹

With models as low as 39 dBA, Bosch is the quietest dishwasher brand in the U.S.¹ To reach these new heights of silence, Bosch engineers approached noise reduction from every angle, incorporating 18 unique sound-reducing technologies.

Understanding decibel levels

Rack-mounted detergent tray

Optimized for tablets, our detergent tray holds tabs in place for a dedicated spray jet to directly dissolve them completely. This not only results in a deeper clean, it also helps to reduce unwanted noise since there's no water jet spraying the inner door. (Dishwasher also works with powder and gel.)

Sensor wash system

This state-of-the-art system uses an advanced scanning-eye sensor to literally look at the level of soil in the wash water, and adjusts both the water temperature and length of the wash cycle to eliminate redeposits. It can also determine if a secondary, fresh water fill is necessary, deleting the cycle whenever appropriate to save water and energy.

EasyGlide™ rack system

For a level of quality you can both touch and feel, we've incorporated smooth-rolling ball bearings to our rack wheels. The result is a smoother glide that opens effortlessly—even with a fully loaded rack—for a more premium feel with every pull.

The easy way to deal with hard water.

Hard water is tough on dishes—and your dishwasher. If you live in a hard water area, glasses may come out looking cloudy or spotted, and your dishes may not get as clean as they should. That's why select 300 Series and ADA dishwashers offer a built-in water softener, which removes hard water spots caused by lime deposits and softens the water to appropriate levels for spot-free, shiny dishes.
