Key Features:

Flexible Configuration

Bosch washers and dryers can be stacked or installed side-by-side. Additionally, stacking kit with shelf and pedestal accessories make laundry day more convenient.

Leak Protection

AquaStop® Plus System is an advanced leak protection system that consists of AquaShield® hoses and sensors that close the water inlet and activate the drain pump if a leak is detected.

Energy Savings

All Bosch washers are ENERGY STAR® qualified. Bosch 500 Series and 800 Series dryers are ENERGY STAR® qualified.

Easy Installation = Savings

\$\$ No ducting required since our dryers use condensation drying technology.
\$ Only one wall receptacle is needed since the washer plugs into the dryer.

Remote Monitoring*

With Home Connect™, your device can send you status updates, including when a cycle is complete, so you can master your day.

EasyStart*

Thanks to Home Connect™, you don't have to guess which setting to select for your clothes. EasyStart recommends the best program based on the types of clothes you select in the app.
