Invented for life

Bosch Offers the Complete Kitchen Solution

The Vita Fresh™ refrigerator offers the quality, style and food preservation solutions your customers expect from Bosch. A proprietary high-tech lining works with precise climate sensors to automatically maintain the perfect balance of temperature, humidity, and air circulation – without the need to adjust any confusing settings. This sophisticated technology also preserves vitamins and nutrients that would otherwise deteriorate with fresh fruits and vegetables.

Breathability is important; Excess humidity is transferred away from fruits and vegetables for extended freshness and best storage environment.

Pores in the VitaFresh™ membrane are bigger than a water vapor molecule, so humidity can easily evaporate through. This provides unmatched food preservation.
