

The next generation of Bosch dishwashers.

Now the industry's most advanced clean meets the ultimate dry.*

The deepest clean with PowerControl™.*

PrecisionWash® technology is featured on every Bosch dishwasher and uses intelligent sensors to assess soil levels and scan progress throughout your cycle.

PowerControl™ spray arm enhances **PrecisionWash®** performance by allowing you to select which areas get a targeted clean—no matter where you load your dishes on the bottom rack. So even your most challenging dishes get the deepest clean.

Ultra sleek and streamlined exteriors.

All-new modern designs with sleek door handles, streamlined touch control panels, and anti-fingerprint stainless steel on all series.**

* PowerControl™ on 800 Series and Benchmark models only.
** Excludes ADA-compliant and German-made models.

Three energy efficient and advanced drying technologies.

PureDry® is our core drying system that does not pull in outside air. And with no exposed heating element, you can safely place plastics anywhere, even on the bottom rack, without fear they will warp or melt.

AutoAir® automatically opens the door at the end of the drying cycle allowing moisture to escape and fresh air to circulate for even drier dishes.

CrystalDry™ technology transforms moisture into heat up to 176° F, to give dishes, including plastics, the ultimate dry.

Clean smarter, not harder—only with Wi-Fi enabled Home Connect®

Enhance your cleaning experience with personalized app features like Smart Cycle which provides intelligent cycle guidance for the best results every time. Or get hands-free voice control with Amazon Alexa or Google Home and so much more, all when you use Wi-Fi-enabled Home Connect®.

Big Innovations. Thoughtful little details. That's Bosch.
