

500 Series FDBM Refrigeration

QuickIce Pro System™

Industry's Fastest*

Twice the ice compared to most external dispenser FDBMs.

3 Technologies

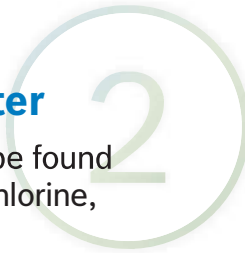

For freshly filtered water and ice straight from the refrigerator.

1 Fastest Refrigerator Ice Maker

Rapid ice replenishment that produces up to **12lbs** of ice per day — enough for **40 glasses!**

UltraClarityPro® Water Filter

Reduces **>99.9%** of sediments that may be found in water, including harsh elements like chlorine, chloramine & heavy metals.

3 BottleFill Technology

Fill a glass or bottle once, press **BottleFill** to save the quantity, & enjoy a **hands-free** fill each time thereafter!

Crescent Shaped Ice

Easily accessible from the external dispenser or...

...transfer to the freezer bin for maximum production & storage.

*Based on single ice maker production rates during a 24-hour period, measured per IEC standard and manufacturer user's manuals for brands identified in the US and Canada TraQline as freestanding French door bottom mount refrigerators.

500 Series FDBM Refrigeration

Features

Streamlined Design

Offered in full depth or counter depth, both sizes have a streamlined look with hidden hinges and easily fit in many existing freestanding cutouts with their 70" overall height.

Stainless Steel Back Wall

The stainless steel back not only looks beautiful, the high quality material also keeps the back of the refrigerator cold.

VitaFreshPlus® Drawers

Two drawers provide ample storage and offer independent humidity controls creating the optimal environment for fruits and vegetables.

- **AirFresh® Filter**
Absorbs odors and is designed to last the life of the unit
- **SuperCool & SuperFreeze®**
Temporarily drops the fridge/freezer compartments to their lowest temperatures allowing for quicker chilling or freezing
- **Easy Controls**
Located above the water and ice dispenser, making changes to your settings has never been easier
- **Wide Gallon Door Bins**
Featured on both sets of doors for practical organization

- **MultiAirFlow™**
Evenly circulates air from corner to corner to keep food fresh regardless of placement
