

Benchmark™ Built-In Refrigeration

The upgraded Bosch 30" and 36" built-in bottom freezer refrigerators bring a fresh update to our built-in lineup offer award-winning design, enhanced performance, and a more intuitive user experience. These models deliver meaningful upgrades while staying true to the trusted quality and functional design Bosch is known for.

VitaFresh® System

VitaFresh® drawers keep food fresh up to 3x longer¹ with precise humidity and temperature control.

Full Color Control Panel with New User Interface

Beautiful full-color display with an upgraded, intuitive interface at an ergonomic height.

Award-Winning Design

The new Bosch Benchmark™ built-in refrigerators have received the prestigious global red dot award for outstanding design.

Premium Metal Door Bins with Non-Slip Mats

Premium rubber mats in each door bin and drawer provide added grip and stability.

LED Lights

Bright, glare-free LED lighting for optimal food visibility and presentation in every compartment.

Internal Water Dispenser

Bosch's industry-leading water filter, UltraClarityPro®, removes an astonishing >99.9% of impurities that may be found in your water, including harsh elements like chlorine and chloramine.

¹As compared to a Bosch refrigerator without VitaFresh®. Results may vary depending on different foods.

Combination Kit - BOSCOMBI10

The Bosch combination kit allows for the option of (2) 30" units to look as one with a white seal down the middle being installed side by side. BOTH 30" units also have field reversible hinges.

Frame Kit

ALL Benchmark™ Built-In Refrigerators INCLUDE a frame kit. This allows for your units to be installed either flush OR proud*.

*Please refer to the specification sheet for exact dimensions needed.

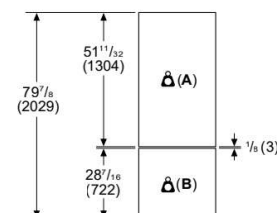

Electrical Cord

To allow for an easy installation, ALL Benchmark™ Built-In Refrigerators include a 118" electrical cord! This allows for great access to an outlet, but also for remodels where previous refrigeration may have had the electrical in another spot (ie: a top compressor)

Custom Panel Weight Limits

BOTH Custom Panel Benchmark™ units have the maximum weight restriction for each panel listed in their respective specification sheet for each door and/or drawer.

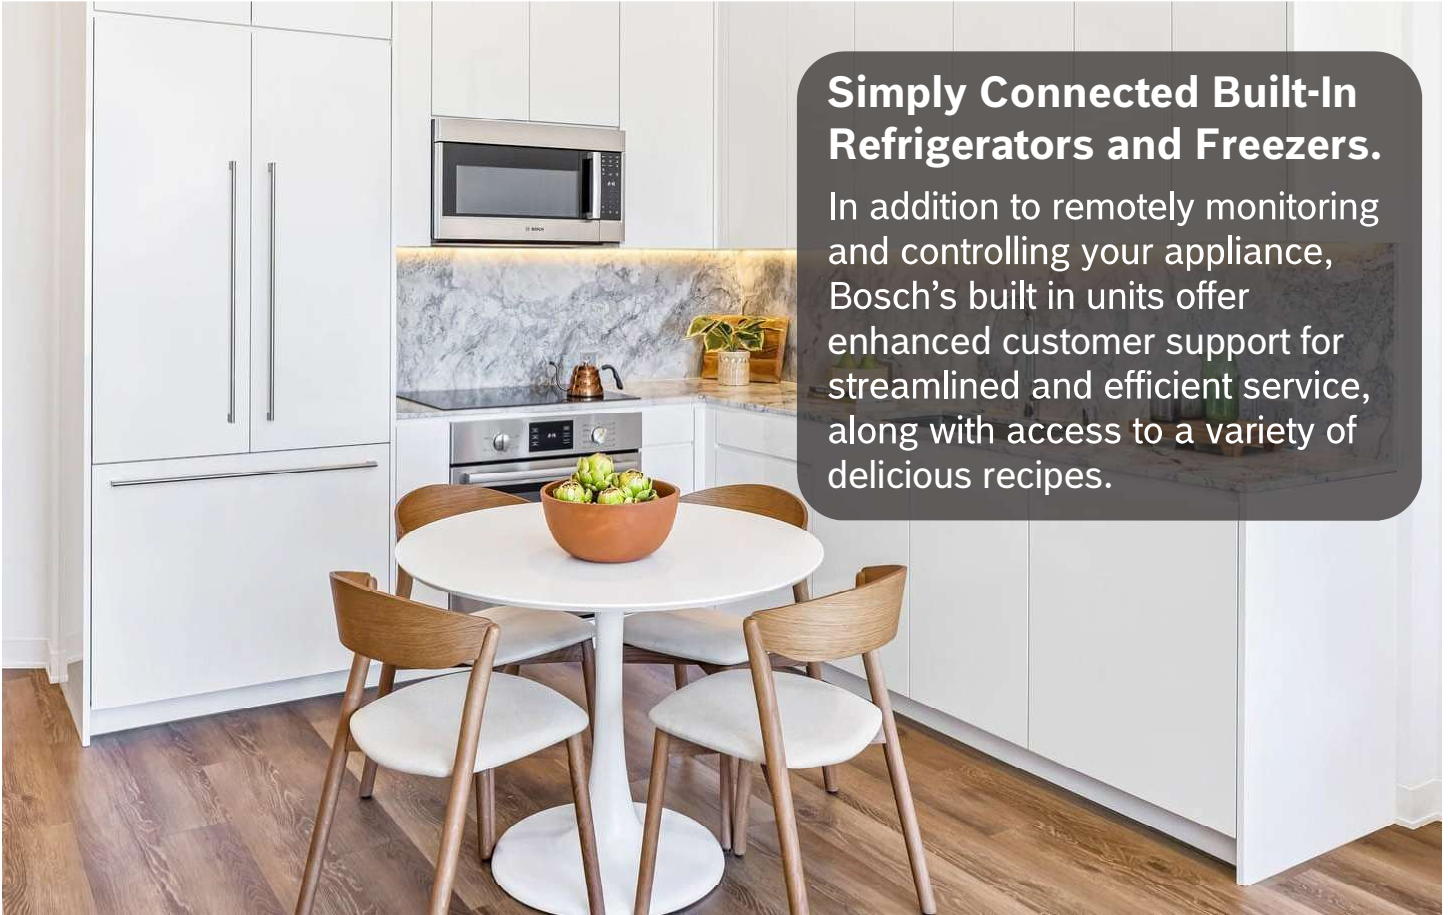

A: Max. weight 133 lb (60.4 kg) per panel
B: Max. weight 38 lb (17.2 kg) per panel

Built-In Refrigeration w/Home Connect®

Simply Connected Built-In Refrigerators and Freezers.

In addition to remotely monitoring and controlling your appliance, Bosch's built in units offer enhanced customer support for streamlined and efficient service, along with access to a variety of delicious recipes.

Door Open Alarm

Your Bosch connected refrigerator can notify you on your smartphone or tablet if the refrigerator door is left open.

Specialty Modes

Specialty modes available include Sabbath mode, Eco mode, and Vacation mode.

SuperCool

Quickly cool perishables that have recently been purchased by activating SuperCool on your Bosch refrigerator.

Remote Temperature Change

Remotely adjust the refrigerator and freezer temperature from anywhere* easily using the Home Connect app.

Get Notifications like -
"Your Water Filter needs to be replaced"

Say Something like -
"Alexa, activate SuperFreeze® in my freezer."
