You can boil water quickly with a Dual-Flame Power Burner. The dual flame ring power burner has two rings for low and high flame settings so you can go from simmer to sear with ease.

FlameSelect®

Introducing FlameSelect® on Bosch cooktops, an entirely new and better way to cook with gas. 9 preset power levels let you easily adjust flame level for more precise, controlled heating.

Sleek Knobs with LED Indicators

Control knobs with an embedded red LED light line indicate if the burner is on or if there is residual heat.

OptiSim® Burner

This burner design is wider and thicker, which diffuses heat evenly for better flame control when simmering delicate sauces.

Dishwasher-safe Grates

A special enameling process allows the grates to be washed directly in the dishwasher instead of by hand for easier clean up.

Easy to clean, low-profile design

The low-profile cooking surface provides a timeless, streamlined look while keeping spills contained and makes clean-up easier than ever.
